Web: www.jwboon.com

How to use this catalog:

Part number:
All numbers that begin with a letter (R, C) are reproduction parts, other numbers are original Harley parts (new old stock).

Price:
Prices are in Euro's. 
Prices include dutch sales-tax.
Sales-tax will be deducted on shipments outside the EU.
Dutch sales-tax is 21%, except books (9%).
"n.a." is "not available" (sold out)

Refers to letter in picture.
In this case you can choose between four part numbers.

A.	2326-38	Hex plug	'38-'51	park	n.a. *
"	R2326-38P	Hex plug	'38-'51	park	7.50 *
"	R2326-38	Hex plug	'38-'51	cad	7.50 *
"	R2326-38C	Hex plug	'38-'51	chrome	10.63 *
B.	C8115-1	Hex plug	'52-'73	cad	6.25 *
"	C8114-1	Hex plug	'52-'73	chrome	9.38 *

The little star * means the part was manufactured in the USA.
No star means not USA-made or we do not know. (we rely on information from our suppliers)

How to order:

You can order by phone, e-mail, or website form.

When ordering parts you need to give your name and address, and the list of part numbers you require. The part numbers are the bold printed numbers in this catalog.

You must use part numbers from this catalog, do not use Harley "oem" part numbers.

Payment and shipping depend on the size of the order, and to which country it is shipped.

You can find the cost for most common shipments on the website.

Minimum order: € 125.00

mailorder only

Info:

Pictures in this catalog are for illustration purpose only, do not use for technical reference.

Most paper older paper gaskets need to be soaked in water for 10 minutes to regain their original size.

The Harley-Davidson part numbers are for reference only.

For up to date information check our on-line database:
www.jwboon.com

About nuts:

Early 1940's and earlier nuts were mostly manufactured by H-D and were machined from stock. These nuts are clearly different than the later style nuts.

See the "Bolts and Nuts" section in the back of this catalog for a complete list

Hex bolt head markings:

'41 and earlier bolts were usually made by Harley and were not marked (plain head). War-time production saw the arrival of other suppliers, these could be marked "1035 cp" or "1038cp"

See the "Bolts and Nuts" section in the back of this catalog for a complete list

"The Enthusiast"

Every year, usually late summer, the new models were announced in "The Enthusiast". Now you have an opportunity to buy the issue that announced your Harley, 1924 to 1958, barring World War II years. These Enthusiasts are also fascinating period magazines often with articles, letters and pictures from all over the world, technical hints, race reports, police department news, etc.

Quality reprints, 21½ x 14 cm., about 24 pages.

Miscellaneous Books

“At The Creation”

by Herbert Wagner

For good reason the origin period of the Harley-Davidson motorcycle has been called an “era of mystery”. Not only were Harley-Davidson’s origins poorly recorded, but the company’s beginnings were further obscured by later confused and contradictory claims that developed into myths. In this work, Herbert Wagner examines several long-standing puzzles and unanswered questions. This book is the definitive account of the beginnings of the only surviving American motorcycle brand.

L686 At the creation 228 pages 45.00

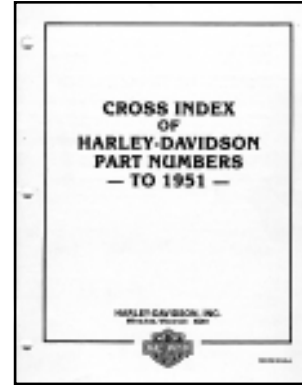

“Cross Index of Harley-Davidson Part Numbers”

Parts catalogs from 1950 and earlier use the “old” part numbers, 1951 and later parts catalogs use the “new” parts numbers.

This manual is a cross-index between the old and new numbers.

L593 Cross index of H-D part numbers 53 pages 18.00

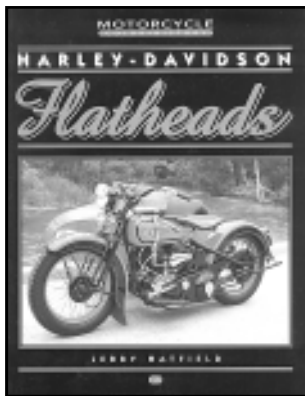

“Harley-Davidson Flatheads”

by Jerry Hatfield

One of the most versatile motorcycles ever built, the Flathead anchors the Harley-Davidson lineage. Flathead engines powered The Motor Company’s success in the 1930s when a fourth of all workers were laid off, and were the Army’s “weapon of choice” during World War II. Author Jerry Hatfield chronicles 55 years of the type’s engineering, military service, racing adventures, and sales success. Restorers will find this book indispensable, but any H-D enthusiast will enjoy this colorful fact-filled account of The Motor Company’s jack-of-all-trades, the Flathead.

L645 Flatheads 128 pages 26.00

“The Big Book Of Harley-Davidson”

by Thomas C. Bolfert 1996 edition

Beautiful hard cover, full color, large size book, 10" x 12½" / 25 x 32 cm, 300 pages

Follow the trail of this American success story as it winds through history, decade by decade, influenced by wars, depressions, and severe competition from domestic and foreign sources, only to emerge in the 1990’s stronger and more popular than ever. Told in an easy narrative style, and illustrated by over a thousand colorful photos dating back to the turn of the century, the story of Harley-Davidson is fitted against a historical timeline that helps put its long past into the proper perspective of the prevailing times.

L619 Big Book of H-D 300 pages 70.00

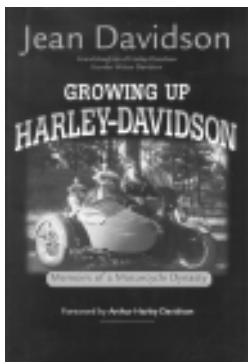

“Growing Up Harley-Davidson”

by Jean Davidson

This memoir of the Harley-Davidson motorcycling dynasty contains rare photos from the family album, as well as the inside scoop on the behind-the-boardroom-door politics and corporate battles, adding new tales to fuel the myth behind one of the world’s great pop culture icons. All copies autographed by Jean Davidson.

L687 Growing up H-D 270 pages hard cover 20.00

L688 Growing up H-D limited edition paperback 25.00

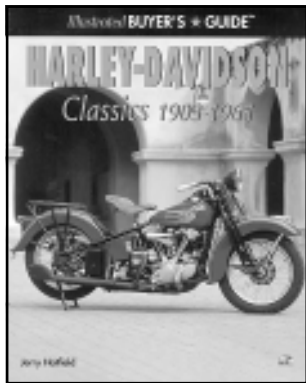

“H-D Classics 1903-1965”

-Illustrated Buyer’s Guide-
by Jerry Hatfield

Harley-Davidson was synonymous with raw power and speed in the early days of motorcycling. Those tremendous machines are chronicled here, from the early singles to the Panhead Big Twins and Sportsters. Each bike is covered year by year, with ratings for collectibility, smoothness of ride, passenger accommodations, reliability, and parts and service availability. This formidable group of data is supplanted with the author’s riding impressions, which put you in the driver’s seat of dozens of collectible Harley-Davidson motorcycles. With this comprehensive book, you’ll be well-equipped to select the year and model perfect for your needs, whether it is a 1914 Twin with sidecar, 1941 WLD, 1936 Model EL Knucklehead, or 1957 Sportster.

L639 Buyer’s Guide 1903-1965 192 pages 20.00

“Motorcycle Memorabilia”

by Roger Pribbenow.

Motorcycle Memorabilia is an enjoyable look at the sport of motorcycling from its beginning around 1900 to the mid-1960’s. Photographed in full color are a great variety of items illustrating the scope of memorabilia collecting and items available to the collector. From catalogs and brochures to motorcycle toys and clothing, manufacturers pins and oil containers, you’ll find it all here. Covers all American-made motorcycles.

L647 Motorcycle Memorabilia 78 pages 18.00

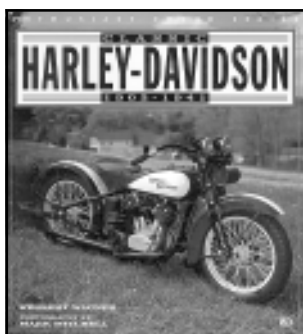

“Classic H-D 1903-1941”

by Herbert Wagner

Delving into the depths of Harley-Davidson history, author Herbert Wagner brings readers many new discoveries on the evolution of the Harley-Davidson Motorcycle. From the turn-of-the-century single-cylinder prototype to the 1941 74 OHV Big Twin Knucklehead, *Classic Harley-Davidson 1903-1941* captures the dream of Bill Harley and the Davidson brothers. Over 80 color photographs help illustrate this amazing story, depicting such models as: 1903 to 1905 Singles - Early V-twins, World War I military models, JDH and JH models (two-cam)- 21" and 45" OHV models - VL and VLH Flatheads - EL and FL Knuckleheads

L644 Classic H-D 1903-1941 96 pages 18.00

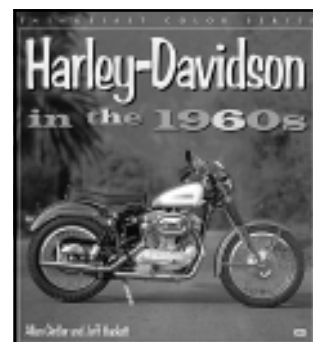

“Harley-Davidson in the 1960s”

by Allan Girdler & Jeff Hackett.

“Harley-Davidson in the 1960s” chronicles The Motor Company’s efforts to survive the Asian onslaught, a struggle that transforms Harley-Davidson-a family run business concern-into a division of AMF. In the process it tells the story of some of the most exciting motorcycles of all time. Covers all models; Duo-Glide, Early-Shovel, Sportster, KR-TT racer, Sprint, Topper scooter, etc.

L655 H-D in the 1960’s 95 pages 16.50

"The H-D Motor Co. - Archive Collection"

by Randy Leffingwell and Darwin Holmstrom
 Since its earliest days, the Harley-Davidson Motor Co. has saved examples of nearly every motorcycle it has ever built. In over 600 studio portraits, Harley-Davidson and master photographer Randy Leffingwell present this historically significant collection of production models, racing bikes, and one-of-a-kind prototypes.

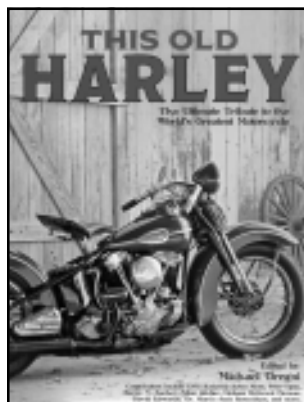

L679 Archive Collection 408 pages 26.00

"This Old Harley"

by Michael Dregni
This Old Harley captures just what it is about Harleys that makes them so popular. This anthology is a tribute not only to this legendary piece of American automotive machinery, but also to the stories, histories, and lifestyles behind its rise as the world's most popular motorcycle.

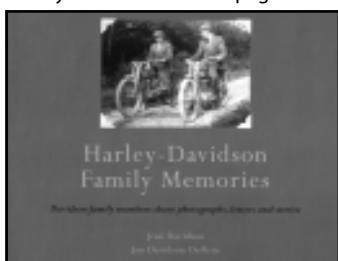

L673 This old Harley 160 pages 26.00

"Harley-Davidson Family Memories"

by Jean Davidson, Jon Davidson Oeflein

- Set also includes drivers for 750cc and Sportster.

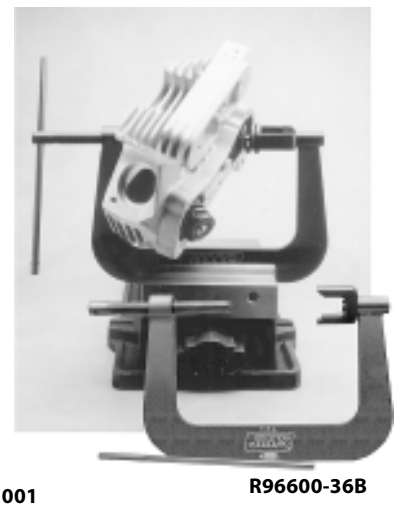

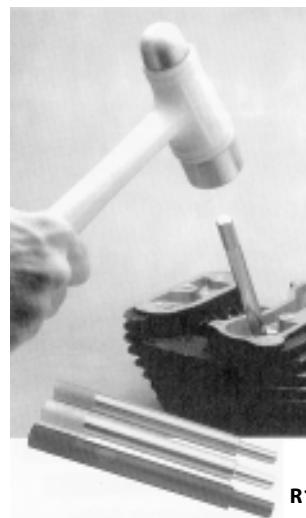

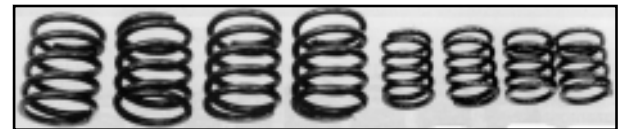

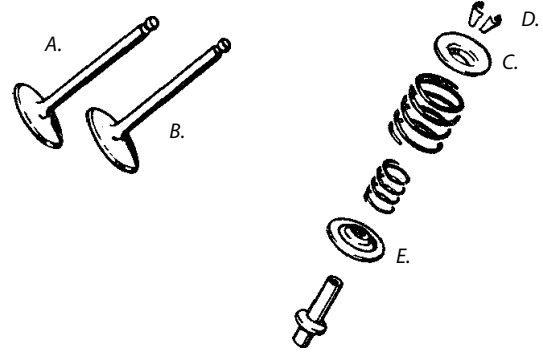

R96600-36B Valve spring compressor 275.00 ☼

R1060 Valve spring seat cutter '48-'84 135.00 ☼
Carbide cutting tips. Use this tool to lower spring seats for high lift cams.
Cuts spring seats to 1.630" O.D., 0.635" I.D.
(must be used with arbor **R1062**)

R1062 Arbor, spring seat cutter '48-'84 35.00 ☼

R1064 Valve guide cutter '48-'84 n.a. ☼
Cuts valve guides to 0.531" O.D. to use teflon valve stem seals.
Carbide cutting tips, arbor included.

R1090 Mini valve spring tester 0-600 psi 210.00 ☼
Hex design for more versatile handling and applications.
Can be used in vise, arbor, or drill press. Cylinder body and piston are manufactured from 2024 aluminum and a steel perch to provide years of service. Includes instructions. Protective rubber gauge boot reduces shock to gauge during handling and use.

Tappet Guides

Made from 7075-T651 aluminum with a tensile strength of 83,000 PSI which is double the amount of 6061-T6 aluminum and almost triple the amount of cast aluminum tappet blocks. These tappet blocks are machined to the center line of the cam and hold to ±.002". Also, the bores are held perpendicular to the mounting flange to ±.0002". Pushrod cover angles have been optimized for a leak tight seal. Designed to accommodate .550" lift at the valves, blocks can be cleared for a higher lift cam with simple modification. Use with flat screws, not countersunk.

R96780-32A

R96780-58A

R96780-32A Piston pin lock ring tool 74.50 €
Use with **280-32** locks.

R96780-58A Piston pin lock ring tool 190.00 €
(piston pin I.D. .515")

R96781-72 Piston pin lock ring tool 190.00 €
(piston pin I.D. .535")
Use with **22582-52** expanding ring type locks.

R1010 Rod alignment tool 41.00 €
Use to check rod straightness when rods are installed.

R1236 Piston ring compressor set 132.50 €
Supplied with 6 bands ranging from 2-3/16" to 4-3/8" (does not fit 750cc models). Fine tooth ratcheting motion to compress bands in small increments for accurate compression. (will not break or damage rings)

R95970-32C

R95970-32C Piston pin bushing tool 185.00 €
Use to replace bushings without removing rods.

R1235 Piston ring expander tool 38.50 €
Remove and install rings without fear of breakage. Smooth gripping edges firmly hold rings to eliminate possible ring damage. Expands rings gently to install in grooves.

Lower Engine Parts

Connecting Rods

R24281-41A Set of connecting rods 1200cc 125.00
With bearing and crank pin. For 1000cc motors change crank pin.

R96718-58	Lap head only	1.750" '58-up	99.00 ☺

R96710-40 Crankcase main bearing race lapping tool 645.00 ☺
Complete set, use on 40-up Big Twins, Sportster, 750cc.
R96710-80 Crankcase main bearing race lapping tool 895.00 ☺
Same as above, but also includes transmission lapping tools for Big Twins and Sportsters.

Jims Lapping Tool

This lapping tool is guided on both sides of the pinion bearing. This additional support on the cam gear side of the bearing race is achieved by means of a bolt-on base plate that precisely locates a drill bushing in which the lap turns. Now instead of guiding only from the left side with Timken bearings, which are a floating fit, this case lap uses a special ground bearing sleeve to hold the left side of lapping shaft without movement. Both ends of the lap are supported in precisely the same centerline as the flywheel assembly. With this extremely rigid arrangement, it is possible to power the lap with a low speed drill motor without fear of chatter in the lapped bearing race. (can also be turned by hand)
Use on Big Twins 1958-present.

R96710.TL Crankcase main bearing race lapping tool 1290.00 ☺
In order to lap 4-speed transmissions, order **R1023-TL** with this tool.

Sprocket Shaft and Bearing Tools '55-up

R1047.TP Crank assembly removing tool '55-up 330.00 ☺
Use to press flywheels from cases (will also press cases apart).

R1048 Hard cap, sprocket shaft '55-up 64.50 ☺
Use to protect sprocket shaft when using tool **R1047-TP**, or a press.

R1045.TS Timken bearing remover '55-'85 355.00 ☺
Use to remove Timken bearing from sprocket shaft.

R97194-57 Outer race tool '55-'68 30.00 ☺
To remove and install outer bearing race.

R97225-55 Bearing installation tool '55-up 275.00 ☺
Use to install crank shaft assembly into crankcase bearing. Torque nut with tool B94660-37A transmission sprocket wrench for consistent professional results.

R97235-55B Bearing nut wrench, use w. ratchet wrench 185.00 ☺

Lower Engine Parts

<p>R95760-TB Cam bearing puller '58-up 255.00 ☼</p> <p>Use to remove cam bearing without splitting cases. Easily pulls bearing from case, also keeps rollers from coming out during removal.</p> 	<p>R2188 Cam bearing installer '58-up 225.00 ☼</p> <p>Easily presses the inner cam bearing smoothly to the proper depth.</p> 
<p>R97272-60 Cam bearing installing tool '58-up 110.00 ☼ (or use R2188 bearing installer)</p> <p>R33416-80 Handle, use with above installing tool 70.00 ☼ (approximately 12" long)</p> 	<p>R2249 Cam bearing gauge set '58-up 114.50 ☼</p> <p>Go & No Go Gauge, the only accurate and easy way to check the size of the inside diameter of your inner cam bearing.</p> 
<p>R94555-55A Pinion gear nut wrench '54-'89 69.50 ☼</p> <p>Use to secure nut to gear shaft, 1/2" drive.</p> 	<p>R2237 Pinion gear lock tool '54-up 210.00 ☼</p> <p>Use to lock pinion gear, necessary to torque the pinion nut. Tool is simple to use, just align underneath gear and screw into case.</p> 
<p>R1110 Cam and pinion gear gauge pins '54-'89 n.a.</p> <p>Use to check pinion and cam gears for pitch diameters. A complete sizing chart is included. 0.105" pins.</p> 	<p>R96830-51 Pinion gear puller '39-up 365.00 ☼</p> <p>Use to remove pinion gear on all Big Twin, Sportster, and 750cc models. Use to install press fit pinion gear on '51-'53 models.</p> 
	<p>R1066 Cam installation tool '48-up 55.00 ☼</p> <p>This handy tool makes cam installation on '48-up Big Twins easier. You don't have to remove rocker covers to install the cam. This tool holds your tappets up in the lifter blocks while you make your cam change.</p>

Transmission Tools

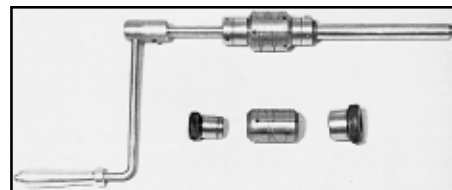

R1005 Main drive gear tool 92.50 €
Use to install and remove the main drive gear bushing.

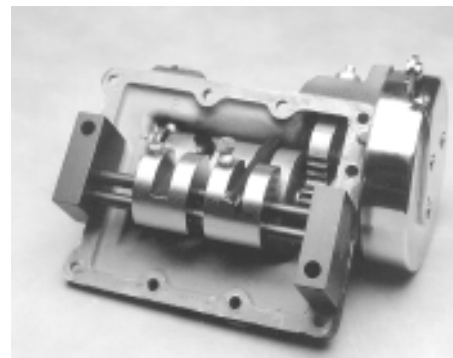

R95660-42 Transmission oil seal tool 385.00 €
Use to install and remove main seal in all '36-'76 4-speed transmissions. This tool will push the seal in as flat and straight as possible to .050" below housing for a no leak fit.

R96710-77 Transmission lapping tool 540.00 €
Use to lap main drive gear bearing race to size and in line with mainshaft roller bearing, also includes lap and pilot for Sportsters.

R96710-80 Combination kit 895.00 €
Same as above, but also includes motor case lapping tools for use on Big Twins, Sportsters and 750cc models.

R96384-39 Shift fork tool '39-'78 175.00 €
To set and align shifter forks.

R12733-41 Socket, mainshaft nut (2281-36A) 36.00

R1050 Transmission stud installer tool 67.50 €

R1700 Mainshaft clutch gear puller 345.00 €
Pulls clutch gear from mainshaft without damage to shaft or gear. 4-speed Big Twins with kick starter.

Clutch Tools

R1004A Clutch hub puller 135.00 ☼

Also removes:

- 3, 5 and 10 stud clutch hubs
- 750cc model clutch hub
- Big Twin alternator cover
- Sportster transmission sprocket
- Big Twin motor sprocket
- Sportster clutch early and late
- and many more

R1004A

R95960-52C

R95960-52C Clutch hub puller '41-'90 132.50 ☼

Use to remove Big Twin dry and wet clutch, 4 bolts included.

R2245 Clutch lock plate '41-'84 122.50 ☼

Use to lock clutch shell to clutch hub, for removing or installing clutch hub nut. Use with tool **R2316** to lock primary.

R2245

R2316

R2316 Primary locking bar 42.50 ☼

(fits between sprockets)

R2234

R2234 Locking tool black delrin 75.00 ☼

Fits between motor sprocket and primary chain.

Sprocket Nut Wrenches

R94557-55A

R94557-55A Compensating sprocket wrench '55-'70 118.50 ☼

(1/2" universal drive)

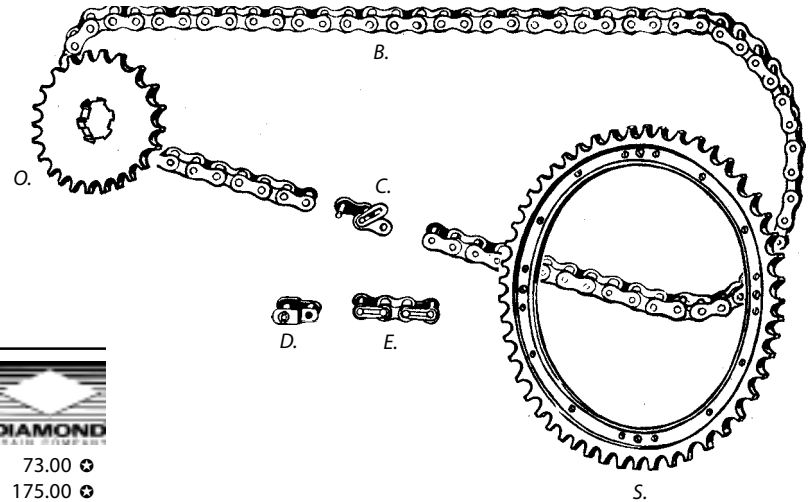

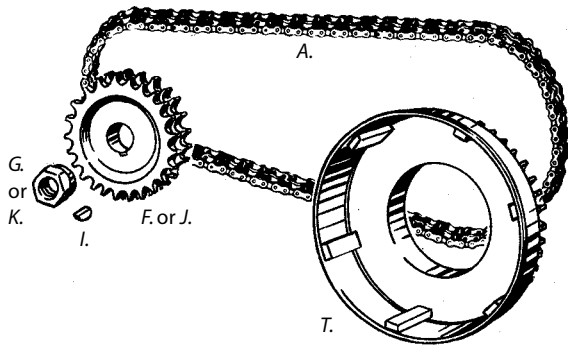

R94660-37A

R94660-37A Mainshaft sprocket nut wrench 250.00 ☼

Heavy-duty thick wall tube, inner collar will retain wrench to nut for safer service work. Has 1/2" drive end for use with universal drivers.

Fork Tools

R1725 Steering head bearing race installer 100.00 ☺
Use to install bearing races in cups as well as cups in frame.

R2232 Steering head bearing race driver 125.00 ☺
Use to remove and install steering head bearing race.
For best results use with spacer **R2388**.

R2388 Spacer, bearing race removal tools 64.50 ☺
The effectiveness of any bearing race remover tool is dependent on the ability to grip the race. This spacer applies outward force on the bearing race tool, to grip the race better, allowing easier removal of the race.

R1725

R2232

R2388

R2244 Top fork nut socket 35mm, 3/8" drive 116.50 ☺
Use to remove or install top fork nut on all glide forks.
Has rubber protector on inside to prevent damage to nut.

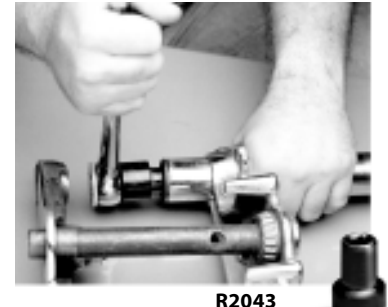

R2043 Fork tube plug socket 90.00 ☺
Use to remove and install top fork tube plug, eliminates possible burring of plug caused by wrenches.

Fork seal and cap installers. Use to install fork seals, dust seals and chrome caps. Lightly grease to keep from scratching fork tubes.

Feeler Gauges

MFG002 25- Blade .0015" - .035" n.a.

U.S. Pitch Gauge

M3118PG Measures number of threads per inch n.a.
Essential tool for determining all UNF/UNC and special thread sizes.

Thread Files

To restore externally damaged threads.

MTR1 Contains most popular sizes n.a.
(11, 12, 13, 14, 16, 18, 20, 24 threads per inch)

MTR2 Contains less used sizes n.a.
(9, 10, 12, 16, 20, 27, 28, 32 threads per inch)

R1080 Solid brass hammer, 48 oz. 1-1/4" head 120.00 ☺

R1081 Solid brass punch set, 4-piece 139.50 ☺
Includes 3/8", 1/2", 5/8", 3/4" punch, use 3/8" punch for setting oil pump check valve ball.

Grease Guns

- Alemite connections are used with "Alemite" nipples ('24-'37 models).
- Hydraulic connections are for use with '38-up "Zerk" grease nipples.

GG1 Grease gun, with hydraulic connection n.a.
GG3 Grease gun, with Alemite connection n.a.

Grease gun for Alemite nipples uses flexible hose.

GG4 High pressure hose only 9.50
GG6 Alemite nipple head 47.50

C2962-6 Alemite grease nipples (6) brass '24-'37 22.50
C8770-6 Alemite grease nipples (6) Nickle '24-'37 22.50

Heli-Coil® / Taps & Dies

Heli-Coil® has the most effective and universally accepted method of thread repair. Heli-Coil® inserts quickly and permanently restore stripped, worn or damaged threads to their original size and condition.

Heli-Coil® Thread Repair Kits

Individual kits come complete with a quantity of Heli-Coil® stainless steel inserts, a tap and an installation tool, order correct size drill seperately. All kits come with step-by-step instructions.

About hex head markings:

'41 and earlier bolts were usually made by Harley and were not marked (plain head). War-time production saw the arrival of other suppliers, these could be marked "1035 cp" or "1038 cp".

'1035 cp'

'1038 cp'

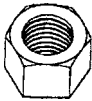

'grade'

Screws, Bolts, Nuts

About nuts:

Early 1940's and earlier nuts were mostly manufactured by H-D and were machined from stock. These nuts are clearly different than the later style nuts. We have marked all the nuts on this page with a 'm' to indicate that they are machined.

'machined'
(sharp edges)

not 'machined'
(round edges)
